

TECHNICAL DATASHEET

POLISH FOR CARS

PRODUCT DESCRIPTION

Advanced polishing technology that hides minor scratches and haze as well as the abrasive marks left by abrasive papers revealing the true, rich color of auto paint. This product is used for quick and easy polishing and waxing of car refinishing systems.

PRODUCT BENEFITS

- 1- Thick, paste formula for concentrated application
- 2- Easy application and workability
- 3- Easily wiped off
- 4- Ideal for large surfaces
- 5- Full gloss finish achieved

RECOMMENDED USES

Ideal for all types of car finishes to remove defects and enhance the aesthetic finish of the car.

SURFACE PREPARATION

Pre-clean the surface with warm water and detergent, rinse sufficiently with clean water.

APPLICATION

Apply with a clean, dry cloth. Rub the compound in straight, backwards and forwards motions. Polish with circular movements. Use a cloth or machine until desired gloss level is achieved, changing cloth frequently. Remove any residue with a clean cloth. Buff the paint surface to reach a glossy surface.

TECHNICAL CHARACTERISTICS

Color: White

Physical state: Paste

Density: 1.2-1.3 g/ cm³
