

TECHNICAL DATASHEET

POLYESTER PUTTY

PRODUCT DESCRIPTION

Two pack body filler based on polyester resin for industrial use, fills the pores and repairs surface irregularities while protecting ferrous surfaces against corrosion.

PRODUCT BENEFITS

- 1- Excellent adhesion on all metallic surfaces
- 2- Great insulating properties
- 3- High resistance to cracking
- 4- Low shrinkage
- 5- Good filling properties
- 6- Quick curing
- 7- Excellent sandability
- 8- Great hardness/elasticity balance
- 9- Good workability

RECOMMENDED USES

The two pack polyester putty is used as filler on metallic surfaces.

It is specially designed to fill deep dents and holes up to 6 cm in diameter. It gives a flexible and resistant surface.

It can also be applied over bare steel, galvanized steel, aluminium and properly prepared old finishes in sound condition.

SURFACE PREPARATION:

All surfaces should be sound, clean, dry and free from loose and flaking material, curing compounds, dirt, oil and grease.

PHYSICAL AND CHEMICAL PROPERTIES

Physical Properties

Physical State Viscous Paste

Color Grey/yellow/beige

Specific Gravity, ISO 2811	1.8-2.2 g/cm ³
Viscosity, ISO 2884	260-280 poises

Drying Time, ASTM D5894	1-2 hours
Recoat Time	4-6 hours
Pot Life	1-2 hours

Chemical Properties

% Solids by Weight	86 ± 2%
% Solids by Volume	47 ± 2%

MIXING/APPLYING

Mixing: Mix the putty with its appropriate hardener. Stir carefully to avoid air bubbles.

Note: - The drying time and pot life of the putty mixed with the hardener will considerably depend on temperature and amount of the hardener used.

Application: Apply in a thin layer. For deep filling apply in several thin layers (do NOT apply in a thick layer). Wait for 20 min between each layer without sanding.

Sanding: Dry sanding: 80-120 sanding paper and finish with 180

When dry and sanded, the putty can be recoated with primers/fillers.

Clean tools and equipment with solvent immediately after use.

PACKING

In cylindrical tin containers of the following capacities:

- 750mL can
- 1500mL can

STORAGE

Avoid frost & excessive heat.
