

TECHNICAL DATASHEET

ENAMEL WATERBORNE

PRODUCT DESCRIPTION

Enamel waterborne is a new generation, low VOC, environmentally friendly enamel that provides an attractive, tough and durable finish for wood and concrete surfaces.

PRODUCT BENEFITS

- 1- Very low VOC
- 2- Excellent durability
- 3- Excellent adhesion
- 4- Excellent leveling and coverage.
- 5- High Resistance to UV and various climatic conditions
- 6- High color and gloss retention
- 7- Water resistance
- 8- Excellent abrasion resistance

RECOMMENDED USES

All interior and exterior wood and concrete surfaces.
Suitable for houses, food industry, pharmaceutical industry, dairies, schools, nursing homes, hospitals, hotels...

SURFACE PREPARATION

Surfaces should be solid, clean and dry, free from oil, grease, salt, dust and other contaminants.

Alkaline and acid surfaces should be cleaned and neutralized.

Deteriorated previous coatings, weak and blistered paints or chalky substances should be removed by scrapers, paint removers or flame spraying.

Non-disintegrated paints or glossy surfaces of previous coatings should be roughened slightly with sand paper to ensure good intercoat adhesion.

Pores and holes must be filled with Ready Putty (concrete) or Wood Putty (Wood) before priming.

PHYSICAL AND CHEMICAL PROPERTIES

Physical Properties

Physical State Viscous
Appearance Gloss, semi-gloss and matt finish
Color Range Cf. Catalogue

Specific Gravity, ISO 2811 1.2-1.3 g/cm³
Viscosity, ISO 2884 5-10 poises
pH. 8- 9

Drying Time 2-4 hrs/coat
Recoat Time After 4- 6 hours
Coverage 50- 60 m² per US gallon per one coat
Opacity > 90%

Sag Resistance Excellent
Leveling Excellent

Scratching Resistance Excellent

Chemical Properties

% Solids by Weight 50 ± 2%

VOC <3%

PRIMING/ THINNING/ APPLYING

Prime the surface with one coat of sealer (with a specific dilution depending on the surface condition) or Undercoat water-based.

Thin with clean water (20 – 30% for brush/roller application). Thickness of paint film depends on condition of surface.

Apply 2-3 coats depending on the color of the product.

Clean tools and equipment with water immediately after use.

PACKING

In cylindrical tin containers of the following capacities:

- 1 US Quart = 0.95 L.
- 1 US gallon = 3.78 L.
- 1 Pail (5 U.S.G.) = 20L

STORAGE

Avoid frost & excessive heat.
