#### PRODUCT BENEFITS

- 1- Very fast drying
- 2- High durability
- 3- Excellent weathering resistance
- 4- Good flow and gloss retention
- 5- Good chemical and abrasion resistance.
- 6- Excellent Hardness
- 7- Good adhesion

#### RECOMMENDED USES

For industrial applications in which fast drying and high performance are required. It can be used for machinery, equipment, metal surfaces and wood substrates.

FDI primer ensures good adhesion on the substrate and can be recoated with FDI paints.

### SURFACE PREPARATION

Surfaces must be clean, dry and free from all contaminants.

Dust must be removed. Oil and grease must be washed out with an appropriate cleaner and the substrate must be left to dry before applying the primer.
