## **TECHNICAL DATASHEET**

# POLYURETHANE LACQUER NON-YELLOWING

### PRODUCT DESCRIPTION

A high performance two pack polyurethane clear lacquer providing a protective transparent finish with exceptional yellowing resistance. This lacquer offers excellent hardness and resistance to various environmental conditions.

### PRODUCT BENEFITS

- 1- Remarkable weather & abrasion resistance in urban & aggressive environments
- 2- Good UV resistance
- 3- Excellent yellowing resistance
- 4- Excellent scratching resistance
- 5- High durability
- 6- Excellent gloss retention.
- 7- Good chemical and mechanical resistance
- 8- Great hardness

### RECOMMENDED USES

Interior and exterior wood surfaces (furniture, cabinets, wood structures...)
Suitable for surfaces where high resistance, durability and non-yellowing properties are required.

### SURFACE PREPARATION

Surfaces should be solid, clean and dry, free from oil, grease, salt, dust and other contaminants. All deteriorated previous coatings should be removed.

Holes and cracks in wood should be filled with suitable filler.

#### PHYSICAL AND CHEMICAL PROPERTIES

### **Physical Properties**

Technology Polyurethane

Physical State Liquid

Appearance Comp. A clear liquid

Comp. B clear liquid

Two Components- requires mixing

1U.S.G. = 50% Hardener

Finish Gloss (30%, 100%)

Color Clear

Component A

Specific Gravity, ISO 2811  $1 \pm 0.05 \text{ g/cm}^3$ 

Viscosity, ISO 2884 90 sec

Component A+B

Drying Time, ASTM D 5895 35 min to touch. Wet Film Thickness, ISO 2808 75- 125  $\mu$ m per coat Dry Film Thickness, ISO 2808 30- 50  $\mu$ m per coat Recoat Time After 2- 3 hours Coverage 12- 15 m<sup>2</sup>/liter

Sag Resistance, ASTM D 3730 Excellent Leveling, ASTM D 2801 Excellent

Scratching Resistance, ASTM D3002, D 3359 Excellent Hardness Excellent

## **Chemical Properties**

## Component A

% Solids by Weight  $40 \pm 2\%$  % Solids by Volume  $36 \pm 2\%$ 

## PRIMING/ THINNING/ APPLYING

If a color is required, wood can be stained before applying PU Lacquer.

Mix Component A with Component B Allow the mixture to react for 10- 15 min Thin with PU thinner up to 25- 30%

P.O.Box: 85 – Zouk Mikhaël / Lebanon Tel.: +961 9 218 645 - +961 9 218 656

Fax: +961 9 220 215 www.Amazonapaints.com info@Happywallpaints.com

Allow the mixture to react about 10-15 min before application.

Apply one coat on the substrate. Recoat it if necessary after 1-2 hours. Clean tools and equipment with PU Thinner immediately after use.

## **CAUTION**

Flammable liquid. Keep away from flame or high heat.

Avoid inhalation of spray mist and arrange for adequate spraying precautions especially in closed areas.

### **PACKING**

In cylindrical tin containers of the following capacities:

- 1 US Quart = 0.95 L.
- 1 US gallon = 3.78 L.
- 1 Pail (5 U.S.G.) = 20 L

Each container is supplied with its appropriate hardener.

## **STORAGE**

1 year under normal storage conditions from the issue date. Avoid frost & excessive heat.
